

2024

BELGIAN STATA USER GROUP MEETING

- Friday, 15 November 2024
- KU Leuven, Campus Brussels

CALL FOR PRESENTATIONS

Submission deadline September 15, 2024

Ritme, the official distributor of Stata, and the **Faculty of Economics and Business of KU Leuven** are excited to host the

2024 BELGIAN STATA USER GROUP MEETING

The meeting provides Stata users from across Belgium and the world the opportunity to **share experiences** with the software, to **present their applied research** and to **share information** on new commands.

The User Meeting will take place on **Friday November 15, 2024** in the very center of Brussels. We are delighted to already confirm the following keynote presentations:

- **Ben Jann** (*University of Bern*)
Drawing maps using Stata: the geoplot command
- **Enrique Pinzon** (*StataCorp*)
Difference-in-differences models: new developments and automated tables.

Anyone interested in Stata is welcome! The conference language will be English.

CALL FOR PRESENTATIONS

The conference aims to welcome two types of presentations:

- Research relying on applied econometrics from **all fields using Stata to perform their analysis**. The aim of these presentations is not to present user-developed commands but to **offer the opportunity to present applied work relying on Stata**. We welcome submissions in **all fields of economics and econometrics**.
- Presentations of **user-written Stata commands**.

SUBMITTING YOUR PRESENTATION

Please email the title and an extended abstract or a full paper of your presentation to event@ritme.com by **September 15, 2024**. Notifications on acceptance will be sent by October 1, and the final program announced closely after.

You are welcome to forward this call for presentations to everyone who could be interested in this initiative.

SCIENTIFIC COMMITTEE

Guido Pepermans (*KU Leuven*), **Ilse Ruyssen** (*UGent*), **Jef Hendrickx** (*KU Leuven*), **Kristien Coucke** (*KU Leuven*), **Nick Deschacht** (*KU Leuven*), **Sébastien Fontenay** (*Universitat Pompeu Fabra Barcelona*), **Simon De Jaeger** (*KU Leuven*), **Stijn Vanormelingen** (*KU Leuven*), **Sunčica Vujić** (*Universiteit Antwerpen*), **Vincent Vandenberghe** (*UCLouvain*), **Vincenzo Verardi** (*Université de Namur*).
