The Department of Economics of KU Leuven and Ritme, the official distributor of Stata, are excited to host the

## 2025 BELGIUM STATA CONFERENCE

The meeting provides Stata users from across Belgium and the world the opportunity to **share experiences** with the software, to **present their applied research** and to **share information** on new commands.

**Anyone interested in Stata is welcome!** The conference language will be English. The Stata Conference will take place on **Tuesday September 9, 2025**.

### Confirmed keynote presentations include:

- **Ben Jann** (University of Bern): *Drawing maps using Stata: the geoplot command*
- **Hua Peng** (Statacorp): *Data Visualization with Stata*

# CALL FOR PRESENTATIONS

The conference welcomes a variety of presentations:

- Research relying on applied statistics or econometrics from **all fields using Stata to perform their analysis**. The aim of these presentations is not to present user-developed commands but to **offer the opportunity to present applied work relying on Stata**. We welcome submissions in all fields, including **economics, business, management, and health sciences**.
- Approaches to using **Python** within Stata.
- Experiences with **teaching statistics** using Stata.
- Presentations of **new community-contributed commands**.

The participation of students and early career scholars is positively encouraged.

## SUBMITTING YOUR PRESENTATION

Please email the title and an abstract of your presentation to [event@ritme.com](mailto:event@ritme.com) by **July 7, 2025**.

Notifications on acceptance will be sent by **July 15, 2025**.

Presenters will not be charged a conference fee.

**You are welcome to forward this call for presentations to everyone who could be interested in this initiative.**
